MOHAMMED AYAN

SQL | Python | Power BI | MS Excel

Hyderabad, India | +91-7483131862 | mohammedayan.aiml@gmail.com | Linkedin | Github | Portfolio

PROFESSIONAL SUMMARY

Recent B.Tech graduate in Artificial Intelligence and Machine Learning with skills in SQL, Python, Power BI, and MS Excel. Proficient in data cleaning, transformation, exploratory data analysis, dashboard development, and KPI reporting to identify trends and generate actionable business insights. Demonstrates analytical problem-solving through data analytics projects and practical experience. Seeking an entry-level Data Analyst or Business Intelligence role to support data-driven decision-making.

CORE SKILLS

Data Analysis: Data Cleaning, Data Transformation, Exploratory Data Analysis (EDA), Statistical Analysis, KPI Reporting, Data Validation, Hypothesis Testing, A/B Testing

SQL & Databases: PostgreSQL, SQL, Joins, CTEs, Subqueries, Aggregate Functions, Window Functions

BI & Visualization: Power BI, DAX, Power Query, Data Modeling, Dashboard Development, Data Visualization

MS Excel: PivotTables, VLOOKUP, INDEX-MATCH, Lookup Functions, Charts, Data Analysis

Programming & Tools: Python (Pandas, NumPy, Matplotlib, Seaborn), Jupyter Notebook, Git, GitHub

Professional Skills: Analytical Problem-Solving, Data Storytelling, Stakeholder Communication

EXPERIENCE

Data Analyst Intern | BeeSkilled | Jun - Aug 2026

- Cleaned and transformed raw datasets using SQL and Excel, resolving 100+ data-quality issues to ensure 95%+ analysis accuracy for stakeholder reporting.
- Developed automated Excel dashboards with PivotTables and dynamic charts, reducing manual reporting time by 30% and enabling real-time KPI tracking for leadership.
- Performed exploratory data analysis (EDA) using SQL queries and statistical methods, uncovering revenue trends and operational inefficiencies that informed strategic planning.
- Presented data-driven findings to cross-functional teams through visual narratives, improving inter-departmental alignment and supporting data-driven decision-making.

PROJECTS

Vendor Performance and Inventory Optimization | Python, SQLite, Power BI | View-Project

- Integrated vendor purchase, sales, pricing, and freight data using SQL joins, CTEs, and aggregations; used Python (Pandas) for data cleaning and calculated gross profit, profit margin, stock turnover, and unsold inventory value.
- Developed an interactive Power BI dashboard to track $441.41M in sales, $307.34M in purchases, $134.07M in gross profit, and $2.71M in unsold inventory capital, enabling vendor and brand performance analysis.
- Identified vendor purchase concentration, with Diageo North America Inc. contributing 24.81% of purchases, and analyzed low-performing vendors, brand sales, and inventory turnover to highlight opportunities for inventory optimization and cost control.

HR Attrition & Retention Analysis | PostgreSQL, Power BI, Power Query, DAX | View-Project

- Analyzed 10,000 employee records using SQL (CTEs, window functions) to identify 2,247 attritions (22.47% rate) across departments, roles, and engagement factors.
- Built an interactive Power BI dashboard with DAX measures and responsive slicers, revealing that Cyber Security (22.39%) and Software Development (20.56%) accounted for 42% of attrition.
- Uncovered a mid-tenure spike at years 4-5 and distance-driven turnover for 25+ km commutes, enabling targeted retention strategies and remote-work policy recommendations.

EDUCATION

B.Tech in Artificial Intelligence and Machine Learning | Guru Nanak Dev Engineering College, VTU | Bidar, India | 2022 – 2026

CERTIFICATIONS & ACHIEVEMENTS

- PostgreSQL Developer (Infosys Springboard)
- Business Intelligence with Power BI Desktop (Udemy)
- Microsoft Excel Beginners to Advance (SkillCourse)
- Global AI Competitor | QuizOff 2026 (India's Biggest AI Quiz) – Hosted on Unstop
